Categories of ABP

Hazards in each category

Category 1

- Risk of prions
- Risk of banned products or contamination

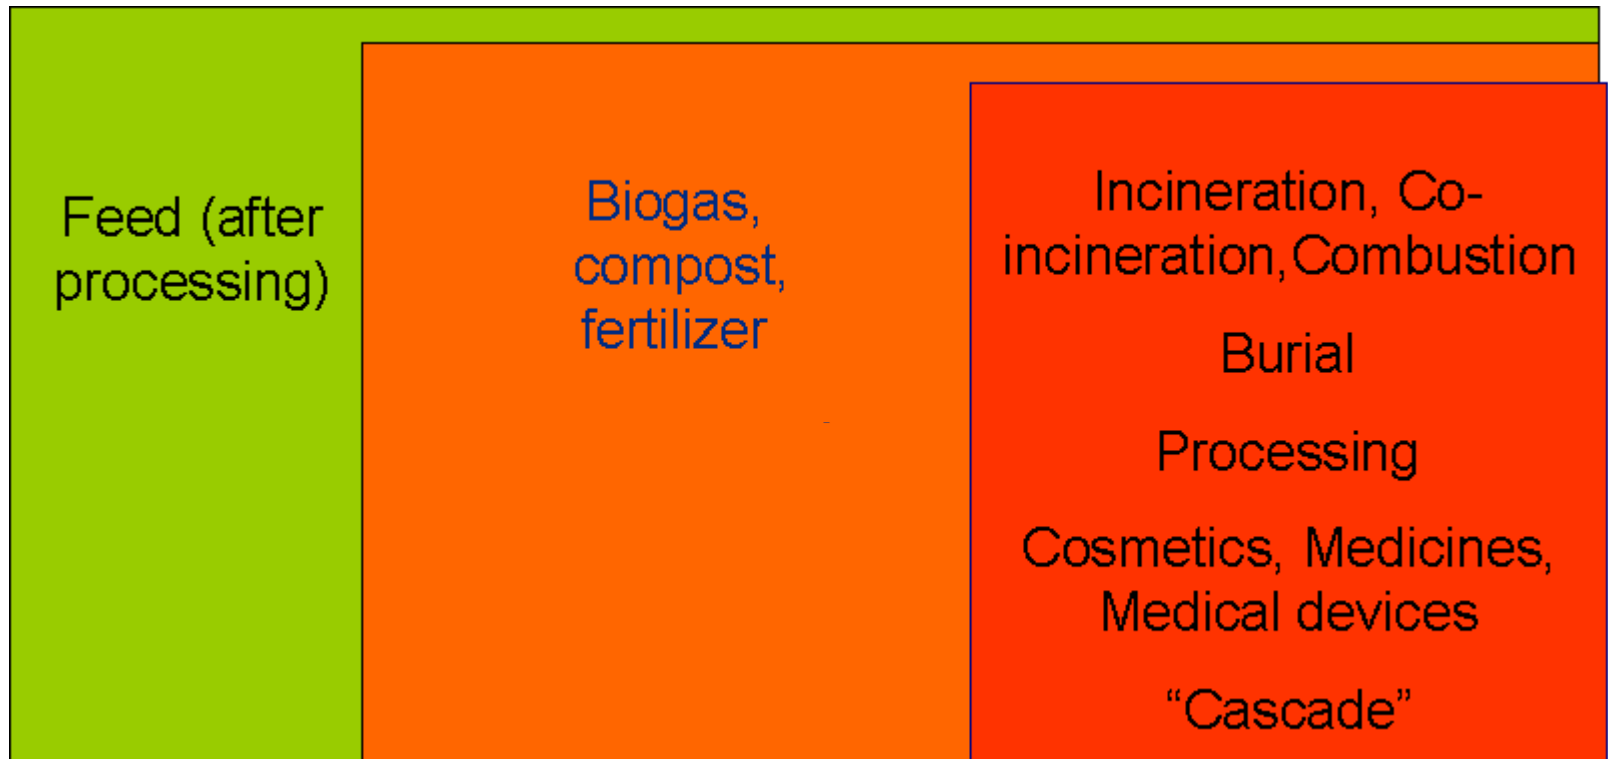

Category 2

- Microbiological risk
- Residues of medicines

Category 3

- Origin of healthy animals

Most frequently used authorized destinations

Some other destinations

- Special feeding purposes
- For exhibitions, artistic activities, diagnostic, educational or research purposes
- Trade samples & display items
- Surgical intervention at farm disposal
- Biodynamic preparations
- Crisis measures
- ...

Ban for feeding

Cannibalism ban

- Terrestrial: PAP species X to species X
- PAP of farmed fish species Y to farmed fish species Y

Catering waste ban

- To farmed animals
- Also derived from catering waste

21 days waiting period for OF/SI

- Access to pasture land
- Harvest feed materials

1 sentence summary

Identify the risk of the material &
send it to an appropriate
destination

Do all category 1 material need to be stained with a dye?

We will set these example results to zero once you've started your session and your slide show.

In the meantime, feel free to change the looks of your results (e.g. the colours).
